## VEITH SYSTEM PIN TABLE for tubular knitted fabrics \* open width \*

high efficient spreading and matching of knitted fabrics - the integrating solution

from marker making over spreading to cutting

spreading the fabric according to the pin position

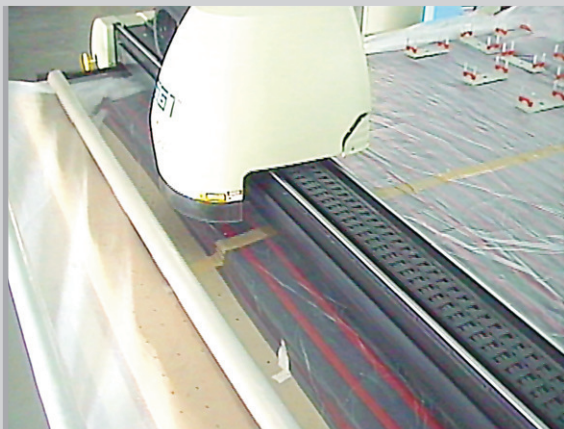

cutting the fabric at the end

VEITH Needle Plates for protecting the lay package before transportation

lay package on the CNC-Cutter ready for cutting

cutting the fabric with a CNC-Cutter

the result

# VEITH SYSTEM

## VEITH SYSTEM PIN TABLE for tubular knitted fabrics \* open width \*

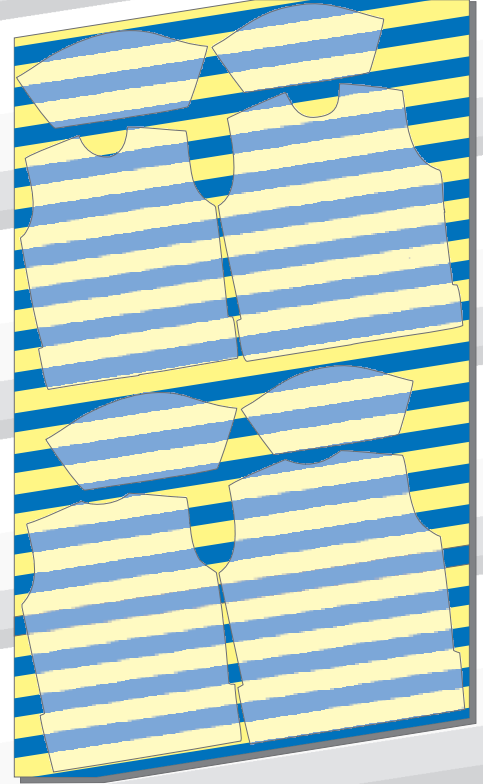

A proven system now also for spreading knitted fabrics with horizontal and *inclined stripes* !

☞ easy to use    ☞ high quality    ☞ high savings in labor and fabrics    ☞ high productivity

VEITH Pin Table with lay

marker

adjustable distance between VEITH Needle Bars  
minimum distance 15 cm (5.9 inch)

distance between pins  
~ 14 cm (5.5 inch)  
(depending on inclination)

separate pins  
can be switched  
on and off

different diameters of pins available, all  
with rounded top: 1.0, 1.4, 1.8 mm

VEITH Needle Bar    adjustable inclination  
of the VEITH Needle Bars  
(max. 12.5°)

adjustable measure tape  
for easy and fast parallel  
positioning of the  
VEITH Needle Bars

OFF SET

the VEITH Needle Bars can be moved  
at any position along the VEITH Pin Table

- in order to follow the conditions of the marker
- in order to overcome and react on repeat variations (even with fabric on the pins)

adjustable height of the  
pins for fast, easy and  
accurate spreading

**VEITH SYSTEM goes GREEN**  
We have installed a photo-voltaic system, generating over the year 35% more electric energy than we consume during the same period.

available table dimensions:					
type	table width		distance of outside pins		amount of pins across the table per VEITH Needle Bar
	cm	inch	cm	inch	
SKT - 170	170	66,9	140	55,1	11
SKT - 184	184	72,4	154	60,6	12
SKT - 198	198	78,0	168	66,1	13
SKT - 212	212	83,5	182	71,7	14
SKT - 226	226	89,0	196	77,2	15
SKT - 240	240	94,5	210	82,7	16

maximum inclination of 12.5° = maximum OFF SET depending on fabric width			
fabric width	max. OFF SET		inch
	cm	inch	
140	55,1	30,9	12,2
150	59,1	33,2	13,1
160	63,0	35,4	13,9
170	66,9	37,6	14,8
180	70,9	39,8	15,7
190	74,8	42,0	16,5
200	78,7	44,2	17,4
